

19th Whitley Bay (Earsdon) Scout Group

www.19wbscouts.org.uk

Dear Parent\Guardian,

We are planning to begin offering wildlife watching sessions to the Scouts. These sessions will allow the Scouts to learn more about wildlife, by observing it in its natural environment. The sessions will work through a variety of different habitats and wildlife, both locally and further afield.

There will be the opportunity for Scouts to gain their Naturalist Activity Badge, if they haven't already received it.

The first session will take place on Saturday 12th March at Holywell Pond, from 9 till 11.

Scouts will need a small day sack, with waterproofs, a notebook and pencil. If they have a camera, or binoculars they can also be brought.

If your son/daughter is interested in participating in the wildlife watching sessions, please could the attached slip be returned by Thursday 10th March.

If there is any other questions or queries regarding these sessions please don't hesitate in contacting us.
